**Wolmer's Girls' School Receives 40 Ergonomic Chairs For Computer Lab From CIBC Caribbean Jamaica**

**Kingston, Jamaica – 27 May, 2024** – Wolmer's Girls' School is thrilled to announce the recent donation of 40 ergonomic chairs for its computer lab, generously provided by CIBC Caribbean Jamaica.

The chairs, designed with suitable lumbar support, ensure that students can sit comfortably for extended periods while practicing and honing their skills in EDPEM and Information Technology.

Principal Coleen Montaque expressed immense gratitude for the sponsorship, noting the significant positive impact it will have on the students' academic experience. "We are elated to receive this generous donation. We asked for some chairs and received all that we needed for our lab. This means we can now accommodate an entire year group for tests and examinations, which is a tremendous help for our students preparing for their CXC and CAPE studies," said Montaque.

Nigel Holness, Managing Director of CIBC Caribbean Jamaica, emphasized the bank's commitment to youth development and education. "At CIBC we are deeply invested in the development of youth and their education. We believe that providing the right resources and support can make a significant difference in the academic journey of students. We are proud to contribute to Wolmer's Girls' School and help create a conducive learning environment for these bright young minds."

The addition of the chairs aligns with Wolmer's Girls' School's commitment to providing the best possible resources and facilities to its students. By ensuring a comfortable and supportive setting, the school aims to foster an environment where students can excel academically and develop their skills effectively.

Wolmer's Girls' School extends its heartfelt thanks to CIBC for their generosity and support. This contribution will undoubtedly play a crucial role in the academic success of the students, particularly those in critical examination years.
