### CHAIRMAN'S REVIEW

The news from the Bank for this period is again positive, with the accent now on the Bank's strong financial performance. This follows on my previous Chairman's Review in which I reported on several positive events, including the \$117 million gain on the sale of the Bank's Republic Bank shareholding, as well as our entry into the vibrant Trinidad market via the acquisition of the former Mercantile Bank.

Net income for the half-year was \$187.7 million as compared to \$40.0 million in the prior year. Excluding the gain on the Republic shares, the year-over-year increase remains significant, with net income of \$70.2 million being \$30.2 million or 75% higher (\$15.2 million or 28% higher on a cash basis which excludes 2004 integration costs and goodwill amortisation).

Excluding the Republic gain, revenues have risen over the prior year by \$32.4 million or 17%, with the key drivers being higher US interest rates and a loan book that has grown by \$408 million or 11% versus the prior year.

The Bank's focus on credit remains undiminished, as evidenced by loans loss provisions of \$3.8 million versus a prior year of \$6.9 million when the loan book was 11% lower.

Total operating expenses of \$133.6 million are \$10.1 million or 8% higher than the prior year.

The prior year financial comparables included \$7.9 million in goodwill amortisation, which was subsequently reversed in Q3 2004 with the application of a newly required IAS standard that mandates an annual impairment test of goodwill on the balance sheet. The test indicated no impairment.

Return on tangible equity for the half-year (excluding the gain on sale) was 16.4% versus the 2004 comparative of 12.9%.

The Board of Directors has recommended an interim dividend of US 2.00 cents per share, payable on July 1, 2005 to shareholders on record as at June 20, 2005. This represents an increase of 60% over the dividend of US 1.25 cents paid in the prior year.

With a successful merger integration behind us, we are now well positioned to make major inroads in the marketplace, and we believe this is evidenced by the Bank's strong financial performance.
