

FirstCaribbean International Bank (Bahamas) Limited
Chairman's Review
Of the Results
For the year ended October 31, 2012

Consolidated net income for the year ended October 31, 2012 totalled \$56.4 million, which was marginally lower than the \$57.9 million recorded for 2011. This year's performance continued to be affected by slow economic recovery, marginal growth and low interest rates.

Total operating income of \$171.9 million declined by \$1.3 million year on year primarily from reductions in cost of funds, in an effort to address excess liquidity, being offset by the greater decline in other operating income due to lower securities gains. While cost containment strategies contributed to the decline in operating expenses of \$0.9 million, loan loss expenses were marginally higher than the previous year as the Bank ensures that there is adequate coverage for potential losses mainly due to exposures in the real estate/construction and tourism sectors. Non-performing loans were also reduced as part of Management's strong focus in this area.

The capital base of the Bank remains strong with capital ratios well in excess of regulatory requirements.

At its meeting on December 20, 2012, the Board of Directors declared a final dividend of thirteen cents (\$0.13) per share payable on January 21, 2013 to shareholders of record at the close of business on January 16, 2013. Previously, an interim dividend of thirteen cents (\$0.13) per share was paid, bringing the total dividend to twenty-six cents (\$0.26) per share for 2012.

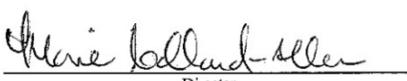

I wish to thank all stakeholders, including our customers, the Board, management, and our employees for their ongoing support.

Notes:

The Bank implemented a new organisational structure with effect from January 1, 2012, which introduced a new business segment, Wealth Management ("WM"). The Bank's operations are now organised into three business segments, Retail Banking ("RB"), Corporate Lending and Investment Banking ("CLIB") and Wealth Management ("WM"), which are supported by the functional units within the Administration ("Admin") segment (which includes Treasury, Finance, HR, Technology & Operations, Risk and Other). The Administration segment results include the earnings on economic capital and capital charges for Treasury and the offset of the same for RB, CLIB and WM. Please refer to Note 26 of the Bank's Annual Report 2011 for further details.

Concurrently, the assumptions underpinning the segment allocation methodologies were updated, resulting in changes to segment performance.

Prior period disclosures were amended to conform to this current presentation basis.
