

**FirstCaribbean International Bank (Bahamas) Limited
Managing Director's Review Of the Results
For the three months ended January 31, 2020**

For the three months ended January 31, 2020, the Bank recorded net income of \$24.0 million, up \$4.2 million when compared with net income of \$19.8 million for the corresponding period last year. Our improved performance was due to increased revenue from fee income and lower credit loss expenses, net of increased operating expenses.

At the end of the first quarter, the Bank's Tier 1 and Total Capital ratios were both 26.4%, in excess of applicable regulatory requirements. At its meeting on March 17, 2020, the Directors approved an interim dividend of nine cents (\$0.09) per share, subject to regulatory approval.

I again wish to thank our clients, employees, shareholders and our board of directors for their ongoing support.

Marie Rodland-Allen
Managing Director

**Notes to the Condensed Consolidated Financial Statements
January 31, 2020**

1. Basis of preparation and summary of significant accounting policies

The accompanying unaudited condensed consolidated financial statements of FirstCaribbean International Bank (Bahamas) Limited (the Bank) should be read in conjunction with the International Financial Reporting Standards (IFRS) consolidated financial statements and notes thereto for the year ended October 31, 2019, included in the Bank's Annual Report 2019. For a description of the Bank's significant accounting policies, see Note 2 of the aforementioned consolidated financial statements.

Basis of presentation

Certain financial information, which is normally included in annual financial statements prepared in accordance with IFRS, but not required for interim reporting purposes, has been condensed or omitted. Reclassifications may be made to the prior period's financial statements to conform to the current period's presentation. These unaudited condensed consolidated financial statements reflect, in the opinion of management, all adjustments that are necessary for a fair presentation of the unaudited condensed consolidated financial statements for the interim periods presented.

The results of operations for interim periods are not necessarily indicative of results for the entire year.

In preparing these unaudited condensed consolidated financial statements, management is required to make estimates and assumptions which affect amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

The consolidated interim financial statements include the accounts of the following wholly owned subsidiaries:

- Sentry Insurance Brokers Ltd.
- FirstCaribbean International (Bahamas) Nominees Company Limited
- FirstCaribbean International Land Holdings (TCI) Limited

Dividends

A special dividend of \$0.42 per share, declared at the Board of Directors meeting on June 20, 2019, received the required regulatory approval and was paid on December 13, 2019 to shareholders of record as of the close of business on December 9, 2019. These unaudited condensed consolidated financial statements therefore reflect an equity distribution of retained earnings.

The Directors have recommended for approval the following dividends, which are not reflected in these unaudited consolidated financial statements as they are subject to requisite regulatory approvals:

- Fiscal 2019 Q3 ordinary dividend of \$0.09 per share (approved by the Board on September 17, 2019)
- Fiscal 2019 Q4 ordinary dividend of \$0.09 per share (approved by the Board on December 12, 2019)
- Fiscal 2020 Q1 ordinary dividend of \$0.09 per share (approved by the Board on March 17, 2020)

Notes:

The Bank's operations are organised into four segments: Retail and Business Banking ("RBB"), Corporate and Investment Banking ("CIB") and Wealth Management ("WM"), which are supported by the functional units within the Administration ("Admin") segment (which includes Treasury, Finance, HR, Technology & Operations, Risk and Other). The Admin segment results include credits or capital charges for Treasury market-based cost of funds on assets, liabilities and capital; the offset of the same for RBB, CIB, and WM earnings on unattributed capital remains in Admin. Capital is attributed to RBB, CIB and WM (Strategic Business Units or "SBU") in a manner that is intended to measure and align economic value with the underlying benefits and risks associated with SBU activities. Management reviews the transfer pricing methodologies on an ongoing basis to ensure they reflect changing market environments and industry practices.
