### CHIEF EXECUTIVE OFFICER'S REVIEW

The Bank reported net income of \$39.9 million for the second quarter, up \$17.3 million or 76% from the second quarter's net income of \$22.6 million a year ago. After adjusting for \$4.0 million of operating expenses related to the divestitures announced at the end of 2021, net income was \$43.9 million.

For the six-month period ended April 30, 2022, reported net income was \$85.1 million. On an adjusted basis, net income was \$92.1 million, up \$29.2 million from the same period last year of \$62.9 million. The improved financial performance was primarily due to increased transaction based non-interest income, and the reversal of provisions for credit losses reflective of favourable changes in the regional economic outlook.

Economic activity continued to improve across the region as COVID-19 restrictions were relaxed, providing further relief to the tourism sector and increasing consumer demand. However, the Bank will continue to monitor the economic outlook in light of supply chain and inflationary pressures, including the regional impact emanating from the war between Russia and Ukraine.

The Bank's Tier 1 and Total Capital ratios remain strong at 13.9% and 16.5% in excess of applicable regulatory requirements. The Directors have approved a quarterly dividend of \$0.010 per share, which will be paid on July 8, 2022, to shareholders of record on June 17, 2022.

I would like to acknowledge and thank our clients, employees, shareholders and directors for their contributions to the success of our Bank.

Colette Delaney  
Chief Executive Officer  
June 2, 2022

#### Notes:

1. The Group's operations are organized into four segments: Retail, Business and International Banking ("RBB"), Corporate and Investment Banking ("CIB") and Wealth Management ("WM"), which are supported by the functional units within the Administration ("Admin") segment (which includes Treasury, Finance, Human Resources, Technology & Operations, Risk and Other). RBB, CIB and WM are charged or credited by Treasury with a market-based cost of funds on assets, liabilities and capital, respectively. The offset of these charges or credits are reported in the Treasury function within the Admin segment.

Management monitors the operating results of its business segments separately for the purpose of making decisions about resource allocation and performance assessment. Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third parties. We review our transfer pricing methodologies on an ongoing basis to ensure they reflect changing market environments and industry practices. Transactions between the business segments are on normal commercial terms and conditions. Segment assets and liabilities comprise operating assets and liabilities, being the majority of the statement of financial position, but exclude intangible assets. Securities and cash placements are normally held within the Treasury unit within the Admin segment.

### NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

#### 1. Basis of preparation and summary of significant accounting policies

Certain financial information, which is normally included in annual financial statements prepared in accordance with IFRS, but not required for interim reporting purposes, has been condensed or omitted. Reclassifications may be made to the prior period's financial statements to conform to the current period's presentation. These unaudited condensed consolidated financial statements reflect, in the opinion of management, all adjustments that are necessary for a fair presentation of the unaudited condensed consolidated financial statements for the interim periods presented.

The results of operations for interim periods are not necessarily indicative of results for the entire year.

In preparing these unaudited condensed consolidated financial statements, management is required to make estimates and assumptions which affect amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

#### Assets and Liabilities of Disposal Group classified as Held for Sale

On October 12, 2021, the Bank publicly announced the decision of its Board of Directors to sell the banking assets of CIBC FirstCaribbean International Bank (Barbados) Limited's operations in Dominica, Grenada, St. Kitts and St. Vincent, and of CIBC FirstCaribbean International Bank (Cayman) Limited's Aruba branch. The completion date of the sale and cease of commercial operations in Aruba was February 25, 2022, upon the satisfaction of the closing conditions. The sale of the remaining territories is subject to regulatory approval and other closing conditions. The assets and liabilities related to these operations have been presented as "Held for Sale" and their associated net loss is presented as discontinuing operations in accordance with the International Financial Reporting Standards.

#### Dividends

During the quarter, 2022 first quarter dividend of one United States cent (\$0.01) per share was paid on April 22, 2022. The Board of Directors has approved a 2022 second quarter dividend of one United States cent (\$0.01) per share to be paid on July 8, 2022 to shareholders of record as of June 17, 2022.
